Preparation notes

Prepared from the original year-end reconciliation workbook. Invoice creation, payment, deposit and adjustment records dated after the cutoff are excluded. Closed zero-balance items are omitted. The listing combines invoice detail, pre-invoice deposits and credits, and the carryover from the prior year.

Carry over from prior year: (\$34,587.31) at both cutoffs, confirmed by management. The source workbook starts with \$178,258.47 at September 30, 2024 and includes (\$212,845.78) of subsequent activity on earlier invoices. The resulting prior-year carryover is presented separately from the invoice detail; it is not a new adjustment.

Credit balances retain the original workbook sign rules, including customer-credit transfers and applications. They are not independently confirmed refundable credits. The detailed Excel schedule includes their source activity. No new journal entries were made for these listings.
