

REVIVE RECOVERY

POLICY COMMITMENT TO ALL PATHWAYS OF RECOVERY

Policy Statement

Revive Recovery affirms and supports all pathways of recovery. Recovery from substance use disorder and related challenges is a deeply personal process, and individuals achieve and sustain recovery through many different approaches.

Revive Recovery is committed to creating a safe, welcoming, and non-judgmental environment where individuals are respected in choosing the recovery pathway that best supports their health, goals, culture, beliefs, and lived experiences.

No individual will be excluded from participation in Revive Recovery programs, services, events, or peer support based on their chosen recovery pathway.

Definition

For purposes of this policy, “all pathways of recovery” refers to the understanding that individuals may pursue recovery through a variety of approaches including, but not limited to:

- Faith-based recovery approaches
- Secular or non-religious recovery programs
- Medication-supported recovery
- Clinical or therapeutic treatment models
- Harm reduction approaches
- Cultural or community-based healing practices
- Personal or self-directed recovery strategies

Revive Recovery recognizes that individuals may move between pathways over time and may utilize multiple approaches simultaneously.
