

Position Title: Certified Peer Recovery Specialist (CPRS)
Organization: Revive Recovery
Location: Minnesota (Statewide / Community-Based)
Employment Type: [Full-Time / Part-Time / Volunteer]
Supervisor: [Program Supervisor / Recovery Services Manager]

Position Summary

The Certified Peer Recovery Specialist (CPRS) provides non-clinical, peer-based recovery support services to individuals seeking or maintaining recovery from substance use and/or co-occurring challenges. This role is grounded in lived experience and focuses on building supportive relationships, fostering hope, and promoting self-directed recovery.

The CPRS supports all pathways of recovery, including but not limited to abstinence-based recovery, medication-assisted recovery, harm reduction, faith-based recovery, and other individualized approaches. The CPRS respects each participant's chosen pathway and encourages autonomy in recovery decision-making.

Core Responsibilities

- Provide one-on-one and group peer support services rooted in shared lived experience
- Assist participants in identifying strengths, setting recovery goals, and building recovery capital
- Support development and progression of Individual Recovery Plans (IRPs)
- Help participants navigate community resources including housing, employment, education, and healthcare
- Accompany participants to recovery-supportive activities, appointments, or community resources as appropriate
- Promote engagement in recovery-oriented systems of care and community-based supports
- Maintain accurate, timely, and Medicaid-compliant documentation of services provided
- Uphold ethical boundaries and confidentiality in accordance with organizational and state guidelines

Recovery-Oriented Approach

- Honor multiple pathways of recovery without bias or preference
- Use person-centered, strength-based, and trauma-informed practices
- Encourage self-advocacy, empowerment, and personal responsibility in recovery
- Share lived experience appropriately to support engagement and motivation

Referral and Support Coordination

The Peer Recovery Specialist will:

- Actively refer individuals to alternative supports, services, or providers when their needs fall outside the scope of peer recovery services or cannot be met by the organization

- Provide warm hand-offs and connection support to ensure continuity of care
 - Collaborate with community partners and service providers to support participant success
-

Qualifications

- Lived experience in recovery from substance use and/or co-occurring challenges
 - Certification as a Peer Recovery Specialist (CPRS) in the state of Minnesota (or eligibility to obtain certification)
 - Strong communication and interpersonal skills
 - Ability to work with individuals from diverse backgrounds and recovery pathways
 - Basic computer skills for documentation and communication
-

Preferred Qualifications

- Experience working in community-based or recovery-oriented services
 - Knowledge of local recovery resources and support networks
 - Experience with justice-involved populations, housing instability, or reentry services
-

Work Environment

- Community-based settings, including participant homes, public spaces, and recovery community locations
 - May include flexible hours, including evenings or weekends
-

Ethical Standards

The CPRS will adhere to:

- Minnesota DHS Certified Peer Recovery Support Services (CPRSS) standards
 - Organizational policies and procedures
 - Ethical guidelines for peer support, including maintaining appropriate boundaries
-

Equal Opportunity Statement

Revive Recovery is committed to creating an inclusive environment and does not discriminate based on race, ethnicity, gender, sexual orientation, religion, age, disability, or recovery pathway.

Important Notice

This position provides non-clinical peer support services only and does not include diagnosis, treatment, or clinical assessment.

Human Oversight Requirement:

All services and documentation provided by the Certified Peer Recovery Specialist are subject to supervisory review and must align with Medicaid and CPRSS standards.
